WHY BOSTON BINGO?

SAGE is dedicated to addressing the systemic barriers to gender equality and empowerment in the seafood sector.

Boston Bingo is meant to document individual experiences that happen to women and genderqueer people working within a system—in other words, in the seafood industry. A goal of Boston Bingo is to call people into a discussion about the challenges faced by women and genderqueer people in the seafood industry and not an attempt to call people out.

If Boston Bingo upsets you, please take a moment to think about why and what you can do to address the inequalities that many women and genderqueer people in the seafood sector experience. To learn more, visit our website and sign up for our newsletter at www.seafoodandgenderequality.org.

*The prize is yet to be determined, but will be totally cool. We promise!
